

Kites in the Classroom

Art Rubric for:

Creativity/ Originality	Craftmanship/ Skill	Effort/ Perseverance	Cooperation Attitude
I thought of many ideas and tried unusual combinations before selecting one.	I used the tools and materials appropriately and to achieve my vision. I demonstrated mastery of the art concept or skill.	I worked until the piece was as complete as I could make it. I gave more effort than was required.	I helped with preparation and clean up, was kind towards others, and had a positive attitude.
I thought of a few ideas before selecting one, or I based my work on someone else's idea.	I used the tools and materials appropriately and mostly achieved my vision. I demonstrated good understanding of the art concept or skill.	I worked hard and completed the project, but with a bit more effort and care it could have been much better.	I helped with preparation and clean up when asked, was ok towards others, and had an ok attitude.
I tried an idea but it wasn't very original, I might have copied work.	I didn't use the tools and materials appropriately, and didn't identify a vision to achieve. My work demonstrates little or no understanding of the art concept or skill.	I finished the project, but it would have been improved with more effort; I chose an easy project and did it indifferently.	I didn't help with preparation and clean up, was unkind to my peers, and complained about the project.
